

Coronavirus test at school

Some people will have a Coronavirus test.

The Coronavirus test will tell you if you have

Coronavirus.

Lots of different places do Coronavirus tests.

My school is now doing Coronavirus tests.

Lots of people have Coronavirus tests.

My teacher may have a test. This is okay.

My friends may have a test. This is okay.

This helps to keep everyone safe.

An adult will tell me what I have to

do when I have a Coronavirus test.

1.

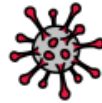

I

am

going

to have a

Coronavirus

test at

school.

This will be done in the hall.

2.

When I

am in the hall,

I

will be

asked to

sit

on a

chair.

3.

When they are ready, an adult will call me

over to the first desk. The adult will check

my name and details.

4.

The adult will then lead me to the swabbing

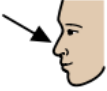

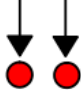

area.

6.

The  adult will  ask me  to  sit on a  chair. When  I

am ready, the  adult will put a swab  up my  nose for a

few  seconds. The swab will go in  both of my  nostrils.

 This might tickle.

5.

The test has now been  completed.

8.

I

will

be

able

to clean

my

hands

using some antibacterial gel.

7.

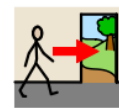

I

will then be

able

to

leave

the hall

via the doors at the back.
